Prayer Request

We are in urgent need of your prayers! Since February Dean has had a series of health problems, beginning with a severe dental abscess which led to antibiotics and pain killers. He has had 22 dental appointments, which included 4 root canals, as well as several fillings. He is now battling an abnormal buildup of fluid in the abdomen with swelling in his legs. We are working with his cardiologist to get this under control. Please pray with us that the treatment he is doing will be successful.

For many years I had taught recorder classes to the young people and children in our church. From those classes a large group went on to study in a music school sponsored by the mayor of the city, learning to play other instruments. After Covid I planned to resume the lessons, but with things going on with Dean's health, it just wasn't working out, but the Lord had other plans. Two of my original students, now adults, stepped in and responded with an excited "yes" to my request to teach the classes! Ravena and Flavio, who are on the front row in the picture, are doing a great job. We have 11 students in the class. They played their first song on Easter Sunday, only a month after beginning the classes.

Thank you for your prayers and offerings.

Deloris and Dean
